Response to Amendment after final

1. This office action is in response to applicant's amendment after final received on 2/8/2005. Claims 38 and 39 have been amended. Claims 3, 24, and 37 has been canceled. Claims 1 - 39 are pending on this application. Claims 1, 22, 38, and 39 are independent claims.

Allowable Subject Matter

2. Claims 1 - 36 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1, 22, and 38, in addition to other elements in the respective claims, the prior art of record fails to teach or suggest "one of the memory array is associated with a quantity of bits of one of one, two, four and eight bits depending on a data input/output operational configuration of the memory device".

With regard to claim 39, the primary reason for indication of allowable subject matter is that the prior art fails to teach or suggest "in a by-nine operational configuration, each of two of the first memory array is associated with four bits, and the second memory array is associated with a single bit".

3. The prior art made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Choi and Kynett et al., taken individually or in combination, do not teach the claimed invention of one of memory arrays is associated with a quantity of bits of one of one, two, four, and eight bits, depending on a data input/output operational configuration of the memory device,

and in a by-nine configuration, each of two of the first memory arrays is associated with four bits, and the second memory array is associated with a single bit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
